This groundbreaking book provides a comprehensive resource for speech-language pathologists who may already serve as expert witnesses and for those who may find themselves involved in a dispute or due process hearing. Complex concepts are explained through numerous case studies as examples of disputes in all work settings.

Brenda Chafin Seal and Lissa Power-deFur draw on their extensive experience to help you understand all of the following:
- the roles and responsibilities of expert and fact witnesses
- the ethical issues involved in both agreeing to serve as a witness and in serving as a witness
- preliminary and contractual tasks required of witnesses
- the legal framework and background for different types of disputes
- the importance of documentation, including clear communication, throughout the process
- business considerations, including conflicts of interest as well as financial implications

Speech-language pathologists are uniquely positioned to offer expertise in communication and swallowing disorders disputes and to disambiguate confusion in complex cases. As expert witnesses, they can provide valuable insights into the nature of language impairment, specific language impairment, and ASD, as well as implicit and spontaneous Theory of Mind reading in ASD. In terms of aetiology, this book focuses on genetic factors, epigenetics, synaptic vesicles, toxicity, and the intertwining of language impairment, specific language impairment, and ASD, as well as implicit and spontaneous Theory of Mind reading in ASD.

This book will be relevant to all mental health professionals because autism occurs in all the different areas of psychiatry and professionals who will find it useful include parents who nowadays are interested in knowing more and more, at a detailed level, about their children or adults with autism.
